PROFILE

Data Analyst with specialized expertise in Monitoring and Evaluation and end-to-end data solutions. Proven ability to transform complex public health data (PEPFAR/USAID indicators) into actionable insights through SQL analysis, automated Excel reporting, and interactive Power BI dashboards. Experienced in collaboration and delivering accurate, timely analytics for data-driven decision-making.

WORK EXPERIENCE

Society for Family Health

JUNE 2023-DATE

Monitoring and Evaluation Advisor

- Lead M&E systems for PEPFAR-funded HIV program across multiple states
- Manage high-frequency reporting on DHIS2/APPR platforms
- Conduct data quality assessments and build team capacity

Global Health Action, Atlanta, USA

SEPT-NOV. 2025

Monitoring, Evaluation and Learning Intern (Remote)

- Real-time decision-making through accurate, clean, and well-structured data systems in Excel/Sheets.
- Performed database quality checks and supported program reporting.
- Data validation, cleaning, standardization, and ethical data use, especially while working on donor data migration and system alignment.

Society for Family Health

2022- 2023

MANAGEMENT INFORMATION SYSTEM CONSULTANT

- Generated weekly/monthly program dashboards for KPIs.
- Supervised data entry team and ensured DHIS2/LAMIS data accuracy.
